#### HARD LUCK FOR BOLD MATADORS.

From Famed Seville Three Bull-Fighters Came, but They Cannot Stay.

New York, Nov. 12.—The bull-fighters from Seville who arrived to-day on the Holland-American liner Maasdam, loaded down with the accounterments of their art, were detained at the Barge Office and inter were ordered to be deported. They had not in their possession the amount of money equired by law and had not sufficient funds to carry them to Vera Cruz, Mexico, where they had planned to slay bulls on Mexican holidays.

Serfain Valdez, the chief matador, and also manager, or "impresario," for the other two, is 38 years old and as pleturesque a figure as has been seen in the Barge Office for a long time. The others are Florencia Sanchez, 22 years old, who is also a matador, and Miguel Collado, 20 years old, a banderillo. Vandez and Santhez paid their passage in the steerage, but Collado was a stowaway.

On the third day out from Rotterdam a stoker uncovered him in one of the bunk-ers, where he had been almost suffocated. He was asked to pass coal for the balance of the trip, a task more trying than any he had ever done on the Plaza de Toros, he

#### TRUST COMPANY CASE.

Judge Thayer Modified Injunction Order to Stilwell's Advantage.

Kansas City, Mo., Nov. 12 -A. E. Stilwell won a decided advantage to-day in the trial of the suit pending in the Federal court here, brought by John W. Gates and his associates for the purpose of having the Guardian Trust Company placed in the hands of a receiver. Judge Thayer, who came from St. Louis to try the case, modified the injunction order so that the Quardian Trust Company

is permitted to transact its every-day business, such as paying salaries and bills, but the directors will not be permitted to hold an election until the present lawsuit is

an election until the present lawsuit is settled.

"The ruling made by Judge Thayer is a oecided victory for us," said A. E. Stilwell. "We will now be permitted to go ahead with our business. I am confident that we will win our case."

The order of Judge Thayer does not bring the case much nearer to a settlement than it was prior to the hearing to-day. From present indications the case will be bitterly contested by both sides, and an early settlement is not probable.

The attorneys for the Guardian Trust Company filed a large number of affidavits to-day to answer the charges of mismanagement and fraud, which were made in the original application for a receivership.

The attorney for Mr. Gates and his associates did not expect this action. When Judge Thayer amounced that the complainants would be given only until 6 o'clock rext Saturday evening to file counter affidavits, the plaintiff's attorneys claimed that they were placed at a disadvantage because many persons they may need to testify are in New York and Philadelphia and cannot be brought here in time.

The case was taken up to-day, not on its merits, but to hear arguments for and against the demurrer to the petition filed by the attorneys for Mr. Stillwell and the trust company.

When Judge Thayer examines the affida-

rust company, When Judge Thayer examines the affida-

vits that were flied to-day and the others to be filed before 6 o'clock Saturday afternoon, he will set a date and place for hearing the original suit. It is thought that this case will be heard at St. Louis, as that city will be more convenient for all parties concerned. ties concerned.

Judge Thayer will render his decision on the demurrer, which was under consideration to-day without further argument, if the attorneys in the case do not object.

He came to the United States early in life, and since 1876 had been a citizen of Monand since INS had been a cultzen of Mon-tana. He became general manager of the Alice silver mine, and later came into con-trol of the Anaconda copper mine. At the time of his death he was president of the Amalgamated Copper Company, In politics

he was a Democrat.

The difficulties between Mr. Daly and Mr. Clark have attracted much attention. The trouble started years ago over some water rights near Butte, which Daly wanted, and which Clark had bought, forcing the other which Chark had bought, forcing the older to pay a very high price. Daly's opportun-ity for reveige came in 1888, when Clark was the Demogratic nominee for delegate to Congress. With his immense influence

The Republicans named in Zweibrucken, Phalsburg Thomas C. Power and W. F. Sanders for their Senators, while the Democrats put up Mr. Clark and Major Martin Maginnis. The Republicans were seated. Daly's in-fluence defeated Clark in a second contest in 1833. In that Legislature, the Democrats had 35 votes, the Populists 3, and the Republicans 33. The Daly Democrats, numbering 9, voted solidly for ex-Congressman W. W. Dixon, and there was a deadlock for the entire session of sixty days. Telegrams from men like Calvin S. Brice and W. C. Whitney and others equally high in their party were sent to Daly to withdraw his opposition, but he ignored them, and the

The next fight between Daly and Clark was on the location of the State capital. Heiena, Missotia, Bozeman and Anaconda were in the fight. Daly advocated the lastnamed place. Clark at first favored Butte, but finally changed to Helena, and that city was chosen. The senatorship again became presbytery.

No mining property has achieved greater fame as a producer of dividends than the Anaconda. Originally bought as a giver mine, it became famous for its copper, and to it both Daly and Clark largely owe their vast fortunes. Back in the seventies two miners named Hickey, from St. Lawrence County, this State, went to Montana. They selected a hill overlooking the little mining camp of Butte and began to sink their shaft. They struck a fair vein of silver, but lack of funds made them stop work and offer to sell. Marcus Daiy bought the property for \$5,000. He acted, it is said, as agent for J. B. Haggin of California, who had sent him to Butte to buy him some good mining property.

As the new owners ran their shaft down they opened one of the world's greatest cop-per mines, with silver enough to pay all expenses, and having the copper as clear profit. Daly was superintendent and part owner of the great mine. He bought the adjacent properties. He founded the town of Anaconda, in a valley twenty-five miles distant, and located where there are an exhaustless supply of water and a great deal of wood-two indispensables for the smelt-ing and reduction of ores. the latter company. A few years later the companies in which he was interested became so involved that there was a collapse in which Mr. Villard suffered very heavily. Returning to Ger-many he formed new financial relations which enabled him to repair his fortune and coming back to this country he started in once more as a capitalist. In 1850 he purchased from Thomas Edison his electrical manufacturing interests, and with the Edi-son Lamp Company of Newark, N. J., and the Edison works at Schenectady, N. In October, 1889, he became chairman of the Northern Pacific Board of Directors, but the panic of 1833 again occasioned the lose of most of his fortune, and led to his loss of most of his fortune, and led to his withdrawal from rnilroad management.

Mr. Harold Villard to-night stated that a report had been circulated that his father had died from the effects of a cancer in the throat. This statement, he said, was erroneous. Mr. Villard's death was caused by apoplexy alone and he never had a cancer in his throat or other serious throat trouble.

Lang was placed under arrest and taken to the Ninth District Police Station, Later

Mrs. Cody appeared at the station to prefer charges against him. She says she make application for a warrant against him to-day. Lang has only recently recovered from a severe attack of typhoid fever and is still far from strong. It is believed that he was unable to pay his room rent, and the trouble between him and his landlady was

caused by this.

When seen last night Lang said that Mrs. Cody started the fight by striking him in the face and pulling his hair. He says that he struck out at her with his fist, but that he did not use any kind of a stick or club during the affray. He bears a good reputa-tion at the sheds where he works.

#### MOST INHUMAN HUSBAND.

Charged With Giving His Bride a Coffin Instead of Medicine.

REPUBLIC SPECIAL

Columbus, O., Nov. 12.—At Wooster, O., to-day Mrs. Julia Mellinger filed a suit for divorce from William H. Mellinger on grounds of neglect and cruelty.

The petition set forth that recently, when she fell a victim of typhold fever, instead of providing medical attention and a nurse, he purchased a coffin for her, brought it

#### **INSPECTING CUBAN PROPERTIES**

Arrive at Santiago. Santlago de Cuba, Nov. 12.-Sir William Van Horne of the Canadian Pacific Railway Company, accompanied by his son and Mr. Percival Farquhar and Dr. Shepard, officials of the Cuban company, arrived this morning on the fruiter Admiral Sampson from Philadelphia. The tug Admiral Dewey met the Admiral Sampson outside El Moro and brought the visitors to the city.

Sir William will inspect the lands, railreads and other properties recently purchased by the company, including hundreds of thousands of acres of sugar and fruit lands along the Gayuto River and near Nipe Bay, which will be developed as soon as the necessary railread construction, now actively progressing, is completed.

The officials say that the report published by the Havana papers, representing the company as planning to import American negro laborers, is faise. On the contrary, the company will use Cuban labor, except in the case of experts, who will not be available here. It is possible that the company may be compelled to import laborers from Spain, but no negroes will be brought in. The possibility of the importation of more negroes has caused a bitter feeling against the company among the Cubans.

The Americans and English here gave Sir Wm. Van Horne an enthusiastic welcome and he was voted an honorary member of Percival Farquhar and Dr. Shepard, offi-

YELLOW FEVER EXPERT TALKS. Disease No More Prevalent Than

Jacksonville, Fla., Nov. 12.—Doctor J. Guiteras of Havana arrived in the city to-day. He is a professor in the Medical University of Havana and holds an appointment under Governor General Wood as a yellow fewer very fever expert. In an interview with the Associated Press to-night he said: associated Fress to-night he said:

"There is no more yellow fever in Havana this year than in former years. More has been heard of it on account of the number of Americans who are in Havana, Thers were 24,000 Spanish emigrants landed in Havana last winter and it has been among them that the fever has spread this summer.

them that the fever has spread this summer.

"Three hundred have arrived from Spain this winter, but we have not allowed them to enter Harana, having erected haracks outside the city, where they are kept until they are sent to the interior of the island. I believe that the yellow fever will be stamped out in Havana in the course of the next two or three years. There is no reason why it should exist now if proper precautions are exercised. There was no fever in Matanzas or Santiago this summer and only a mild form in Havana. Every house in Envana will be fumigated this winter, and if the dormant germs can be exterminated there will be little or no fever in Havana next summer."

#### FOR A NEW STATE BOARD.

Chicago City Council Wants Lighting Prices Regulated.

Chicago. Nov. 12.—In the Chicago City Council to-night Alderman Walter Butler introduced a resolution, which was referred, urging the next Legislature of Illinois to pass a law for the establishment of a State commission regulating the price of illuminating gas and electric light. The board is to be appointed by the Governor. The commission is to hear all complaints against gas or electric companies and is empowered to demand regular statements of authorized capital, expenses and income from each of such corporations or companies.

#### FIRST FROST IN TEXAS.

Little Cotton Crop Left in the State Is Cut Short.

Houston, Tex., Nov. 12.—Heavy frost is reported from the northern border of Texas deep into South Texas, cutting short the cotton crop remaining in the fields.

Very little cotton remains unpicked, however, as a rule. Farmers have had fine weather for picking and the crop is a big one.
